A Fine Motor Boat.

Mr. Geo. A. Blewitt's new motor boat "Zipalong" was brought down from Brighton last week and has had several trial spins on the river. The boat was built at Brighton by Mr. M. Z. Butler, is 32 feet long, six feet ten inches beam. The engine is a four cylinder four cycle Stirling with magneto ignition, rear starting device and reverse gear. The decks, coaming and interior are beautifully finished in natural wood with brass rails, lamps and trimmings. An auto canopy top is provided with side curtains, completely enclosing the boat when necessary. With the comfortable wicker chairs, folding couch and cushions the boat should be very comfortable and being roomy will accommodate quite a party. Mr. Blewitt has also built a splendid boat house in which to house

Mr. and Mrs. Lapin, of Wilton had a narrow escape from serious injury in Kingston on Saturday afternoon last, about half past five o'clock. They drove out of the American hotel yard on Brock street in a buggy. A street car was coming towards them from the same direction and an automobile from Market Square. Their horse took fright and bolted for the Market Square. The animal was uncontrollable, and dashed on at a lively gait. On reaching the centre of the market the buggy came to grief, striking the high asphalt walk which runs towards King street. The front wheels were smashed and the occupants were tossed out, but, very fortunately, escaped injury. The horse was caught a short distance away.

decorated with brass rails, lamps and trimmings. An auto canopy top is provided with side curtains, completely enclosing the boat when necessary. With the comfortable wicker chairs, folding couch and cushions the boat should be very comfortable and being roomy will accommodate quite a party. Mr. Blewitt has also built a splendid boat house in which to house his new craft.

The Hospital Question.

The offer of Mr. W. S. Detlor to purchase the Traver's home and donate it to the town for hospital purposes, is receiving the hearty commendations of the citizens. Napanee has need of an hospital and enough money is sent out of the town and county every year to hospitals to amply provide for the maintenance of a good hospital and since the generosity of Mr. Detlor has made it possible the town should, if at all possible, conclude arrangements for the purchase of the building and its equipment as an hospital for the town and county. The building is probably the best one which could be secured in the town for the purpose. The question was brought to the attention of the county council this week and the members of that body expressed themselves as heartily in sympathy with the idea and promised generous financial aid towards the maintenance of an hospital in Napanee.

Leg Crushed by Train.

John Swede, laborer, of Napanee, was taken to the general hospital, on Saturday evening, with his left leg almost cut off above the ankle. He and his brother-in-law got aboard the G. T. R. train from the west about seven o'clock, en route to Ernesttown. As the train was leaving the latter place, Swede, who is about twenty-six years of age, was found lying on the tracks, with his leg crushed. How he came there no one could tell, but it is surmised he attempted to get off before the train stopped, and fell on the rails. The train immediately stopped, and the injured man was carried aboard. A Kingston doctor happened to be aboard, and he looked after the unfortunate man until Kingston outer station was reached. R. J. Reid's ambulance had been summoned, and was in waiting. Swede was taken to the general hospital, where Dr. Anglin, G.T.R. surgeon for this district, amputated his leg between the ankle and the knee. The young man never winced on the way to Kingston.

At the general hospital, it was found necessary to operate again on John Swede, the Napanee laborer, the victim of the accident, on the G.T.R. at Ernesttown, Saturday night. After being taken to the hospital his leg was amputated between the ankle and the knee. On Monday afternoon, it was found necessary to amputate again, this time just above the knee. The unfortunate man is in quite a critical condition. Drs. Anglin and Mundell performed the operation.

It will show improvement six hours after application.
W. A. ROSE.

The year 1909 will be marked in the calendar as a red letter year in the history of the crusade against consumption. The movement received a great impulse from the congress of distinguished physicians which was held in Washington, U. S. in the autumn of 1908 to consider the further measures to be taken to stamp out this dreadful enemy to the life and happiness of mankind.

Canada in common with the rest of North America, perhaps we should say the whole civilized world, has participated in the renewed and increased activity which resulted from the deliberation of the congress.

Never since the organization of the Canadian Association for the Prevention of Tuberculosis has there been such activity displayed in Canada in this fight for life. Older branch associations have been reinvigorated, new associations have been formed which are showing in many cases a vigorous activity. Several new institutions for the relief and treatment of consumptives have been opened and the demand for our literature has been larger than ever. Take it all in all 1909 was a year of great progress in the work of
